Hunt's *Perfection* Bulbs

1930

Vegetable Seed Trials

How to Grow Bulbs

Daffodils and Crocuses may be planted in the garden between the first of September and the middle of October; Tulips the latter part of October, but should not be delayed too long if best results are desired. Early-planted bulbs come up more evenly, earlier, and develop finer flowers than those put in later. Hyacinths may be planted any time from September to December.

When grown in beds, Hyacinth and Tulip bulbs should be planted at a uniform depth. The easiest way to do this is to remove all soil from the bed to the depth required, set the bulbs as far apart as the planting-table indicates, and carefully replace the soil. Many people do not think this is worth while; they prefer to plant with a trowel or dibble. Where this practice is followed, great care should be taken to see that the base of the bulb is pressed firmly into the soil.

After the ground is frozen to a depth of 4 to 5 inches, it is well to put on a cover of straw or leaves. This should be removed rather early in the spring. Tulips and Hyacinths should be taken up each year. Let the foliage mature, either where they have flowered or in another location. After drying, the bulbs should be kept in a cool, dry place.

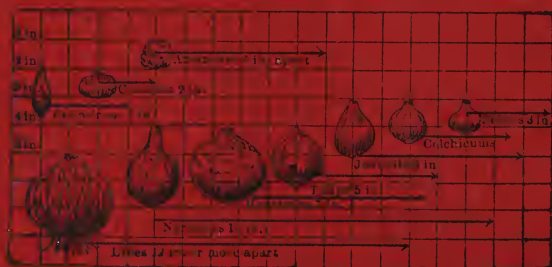

Daffodils may remain in the same place for three to four years at a time. The clumps may then be taken up and divided for replanting.

Crocuses give a delightful effect in early spring, but, like Narcissi, should not be planted where grass is kept clipped. They are extremely desirable in naturalistic plantings, but to obtain good effects it is essential that they be used in large quantities; plan to use several thousand in each 50-foot square of woodland or meadow.

Lilies demand good drainage. This may be secured by placing a quantity of sand below each bulb, or by mixing peat or humus with the soil. The tall varieties should be planted in a location where they receive protection from high winds; all of them enjoy partial shade.

CULTURE INDOORS—Paper-White Narcissi and the Chinese Sacred Lilies are the easiest to grow. A bowl of pebbles and water is the "garden." Hyacinths likewise present little difficulty. Place each bulb in a glass so that the base barely touches the water, and leave them in a cool, dark

place until the roots develop. They may then be brought into the light, and will produce just as fine flowers as if they were grown in pots or outdoors. Start the bulbs any time between September and January; for succession of bloom bring them into the light at intervals of several weeks.

Many of our customers are frequently puzzled to know proper depth and distance apart at which bulbs should be planted. The accompanying diagram conveys the information very clearly. The chart will bear careful study.

To Our Friends and Customers

AS ANNOUNCED in our Seed, Bulb, and Plant Catalogue for 1928, the business of J. M. Thorburn & Co. was united with William M. Hunt & Co., Inc., on January 1, 1928. We believe that this consolidation has been and will continue to be of material benefit to the customers of both firms, and marks a distinct step forward in the progress of American horticulture.

We thank you for the kindly support which you have given us in past years, and bespeak the continuance of your friendship in this and coming seasons.

Please notice particularly that the Federal Quarantine Act, now in effect, prohibits the importation of all **Narcissus**. Our list of American-grown bulbs of **Narcissus** is fairly representative of the leading popular sorts, and though somewhat higher in price, may be relied upon to give satisfactory results. As the demand usually exceeds the supply, early buying is suggested.

Early Ordering. Your coöperation is invited. By placing orders early, you will aid us in preparing for the summer and autumn trade and facilitate delivery at proper time.

Rush Orders may be telegraphed or telephoned at our expense.

Prices on Bulbs, Seeds, Plants, and Supplies are subject to market and tariff changes.

Terms. Prices quoted are net and do not include free transit, except for seeds in packets, ounces, or quarter-pounds, on which we prepay postage or expressage to any point in the United States.

Upon delivery of goods by us to the carrier, ownership passes to the purchaser; when the carrier issues a receipt our responsibility ceases. Claims for damage should be made to the agent at point of delivery.

Non-Warranty. William M. Hunt & Company, Inc., give no warranty, express or implied, as to description, quality, productiveness, or any other matter of any seeds, bulbs, or plants they send out, and they will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are to be returned at once.

Grown and exhibited by J. B. Schlottman, Esq. (James Hopton, Supt.), from bulbs supplied by William M. Hunt & Co., Inc., New York City

Imported Bulbs for Forcing and Early Planting

Early Roman Hyacinths

The early Roman Hyacinth, with its graceful spike of fragrant bells, is one of the earliest of all winter-flowering bulbs.

New-crop bulbs will be ready in September, when they may be planted in pots or pans of a compost containing two-thirds fibrous loam and one-third sand. They may also be placed in the more artistic ornamental bowls now available in any china store, using our prepared Bulb Fibre as a filler, which only needs to be kept continually moist, requires no additional fertilizer, and in which the bulbs thrive and bloom luxuriantly. Bulbs planted in September will bloom in December.

Roman Hyacinths

Prepared Dutch Hyacinths

These bulbs are intended only for indoor planting and have, both in growing and harvesting, been submitted to a treatment that insures early ripening and leaves them in a condition to respond to intense forcing methods for early bloom. Planted in September, they bloom about the same time as the Roman Hyacinths, or soon after them. We offer miniature sizes only.

Freesias

New-crop bulbs will be ready in July and if potted at once and kept in a coldframe until leaves are well developed and then brought in and not forced, they can be bloomed early for Christmas.

Purity

Snowy white flowers of large size, borne in great profusion on stems 2 to 2½ feet long, which grow upright and stiff.

Largest Bulbs. XXX. \$1 for 10, \$7 per 100, \$60 per 1,000.

Second Size. XX. 75 cts. for 10, \$5.50 per 100, \$50 per 1,000.

FISCHERI. (True.) Mammoth pure white flowers. \$1.25 for 10, \$8 per 100, \$75 per 1,000.

Novelty Freesias

WHITE QUEEN. Undoubtedly the finest white Freesia. Produces larger and more flowers on longer and stronger stems than Purity, and comes into bloom ten days earlier. Has exceptional keeping qualities. Well recommended; stock limited. \$4 for 10, \$25 per 100.

WISTARIA. This is without doubt the best blue Freesia disseminated to date. Flowers are of deep Wistaria-blue and are borne on strong, wiry stems. Importation permit will not allow delivery before October, but orders for a limited quantity may be booked now for delivery at that time. \$4 for 10, \$25 per 100.

New Varieties of Dutch Bulbs

New Darwin Tulips

Among the following will be found the newest varieties of "Yellow Darwins." Up to a few years ago this color had to be provided from the Cottage varieties, in which yellows are plentiful. These new yellows and blends of yellow will be found both valuable and extremely interesting to those who desire the complete color range of this race. The much-desired blue and yellow combination may be secured by planting these new yellow shades among forget-me-nots, and the paler, creamy sorts are exquisite if flanked by well-grown clumps of *Centaurea montana*. Certain soft lavender tulips like Rev. Ewbank, Euterpe, and Dal Ongaro are beautiful with them, too, but avoid placing them near reds or pinks of any shade.

The following prices are for Import Orders only, which must be received not later than August 25

Aviator Hawkes. 30 in. Very large, cup-shaped blooms of dark rose-pink, borne erect on strong, stiff stems.....	Each	10	100
	\$0 75	\$5 00	
Bene Est. 32 in. Very large and most attractive flowers of pale canary-yellow accentuated by glittering black anthers. One of the newest and rarest colors in the Darwin race.....	1 00	7 50	
Golden Fleece. 30 in. Huge blooms of intense, rich golden yellow, tinged with bronze on the outside of the petals. An outstanding new variety.....	60	4 50	\$36 00

New Cottage Tulips

The wonderful size, brilliant colors, and wide variation of shape of the flowers give the Cottage Tulips interest and beauty which are not found in other classes. We find that connoisseurs, and those who like their colors fresh and clear, prefer the Cottages to other late Tulips.

Alaska. 28 in. Long canary-yellow petals with butter-colored base, opening to an enormous flower of star-like shape. Half-open, almost exactly like a lily. Very lovely and distinct.	Each \$0 50	10 \$2 50	100 \$20 00
General French. 24 in. Enormous, long, deep flowers of dark old-rose on the outside; inside glowing rosy crimson with an enormous white base tinged with cream and edged blue. One of the handsomest Tulips grown.....	50	3 00	25 00
Good Luck. A large, orange-yellow flower.....	1 00	6 00	50 00
Marchioness of Londonderry. Amber-colored flowers tinged with soft yellow and light violet.	1 00	6 00	
Rosabella. Exquisitely shaped flowers of heavy substance, pale shell-pink with a creamy suffusion, sometimes stained dark rose on the center of the outside petals, with an occasional flame of scarlet on the inner petals, becoming rosy pink with age. The central base is very large and pure creamy white, and the anthers glittering black. An extraordinarily handsome Tulip of delightful shape and color.....	50	2 50	20 00
Vindictive. Fiery red with dark orange shadings.....	1 00	9 00	

Triumph Tulips

Triumph Tulips are Hybrids of the Darwins, with the same strong stems and stately stature, of unusually attractive self colors and delicate blendings. They bloom two or three weeks earlier than their parents.

Lord Carnarvon. 24 in. Large, lily-like, pointed flower with rich wine-colored petals, broadly margined with white, which gradually deepens to old-rose-pink; white base and yellow anthers. On opening it resembles the early Tulip, L'Esperance, and is very distinct.....	Each \$0 50	10 \$2 50	100 \$16 00
Ohio. Rosy pink; medium size.....	50	2 50	16 00
Pollux. Magenta-purple; large flower.....	50	2 50	16 00
U. S. A. 30 in. Large orange-red flower with lighter edge; inside coppery orange, overlaid with gold.....	50	1 75	15 00

Prices on all Imported Novelty Bulbs are applicable only on orders received prior to August 25

Hunt's PERFECTION Bulbs

Dream

Farncombe Sanders

Darwin Tulips

N. B.—OUR TULIP BULBS ARE ALL TOP-SIZE

Undoubtedly Darwin Tulips are increasing in popularity every season. The colors range from white to purplish black, including shades of crimson, violet, brown, rose, etc. Very effective for planting in shrubbery or in hardy plant borders. The flowers are large, deeply cupped, and are borne on lofty stems which are ideal for cutting and vase use. Gorgeous combinations of color can be made by planting them in broad masses or long, narrow borders. To avoid striking contrasts, use tones of bronze and pale violet with the lavenders—and soft pinks and lavenders, shades which merge into each other and do not clash as violently as the usual red and yellow. If striking effects are desired, try *Bleu Aimable* in front of *City of Haarlem*, a vivid, odd, *French* combination of blue and scarlet; or an even more effective combination of some pale yellow, like *Flava* (a Cottage Tulip) with a deep red-purple variety, *Philippe de Comines* or *Zulu*. The new pale yellows are also good with dark mahogany-red varieties like *King Harold*. Brilliant reds like *Pride of Haarlem* and *Farncombe Sanders*, are best used alone, or against an evergreen background. Dark pinks are good with light pinks and white varieties, like the *Cottage Picotee*. Forget-me-nots are especially good to associate with pink Tulips. Those marked with * are best for forcing.

Owing to unfavorable weather in Holland this spring, Tulip Bulbs are, in almost all cases, very scarce.

Standard Varieties

	10	100	1,000
Anton Roozen. 28 in. Rose-pink, edged with pale rose. Large cup-shaped flower of rare beauty.....	\$1 25	\$6 00	\$55 00
* Baronne de la Tonnaye. 30 in. Blush-rose, medium-sized flower with a salmon glow in the center and brilliant black anthers. A tall, handsome variety, more richly colored than <i>Clara Butt</i> . For bedding and forcing. Similar to <i>Farncombe Sanders</i>	1 25	6 00	55 00
* Bartigon. 28 in. Flower carmine-red; base pure white edged violet. Splendid for forcing.....	1 25	6 00	55 00
Bleu Aimable. 26 in. Pale lavender; with white base. A beautiful flower of very unusual shape.....	1 50	7 50	70 00
* Centenaire. 32 in. Violet-rose with white base. Early, outdoor flowering, and excellent for forcing. A very handsome, rich color, enhanced with a dull blue base and glittering black anthers. Stems straight and tall.....	1 25	6 50	55 00
* Clara Butt. 24 in. Deep rose-pink, inside still deeper, with blue base and white halo. For outdoors or forcing. The familiar old standby for pale shell-pink color-effects.....	1 00	5 50	50 00

Giant

Darwin Tulips of Recent Introductions

Here is included a selection of the finest novelties of recent years in this most popular class of Tulips. As usual in the case of novelties, many of them resemble some of the older forms, but in almost every case there is a distinct improvement in the clarity of the color, height of the stem, or beauty of shape, so that they are superior in every way to the older varieties of similar color. Prices of the following varieties are for import orders only and will be withdrawn after August 25.

Afterglow. 26 in. Possibly the sweetest color-play found in Darwins—rich deep rose, laid over salmon-orange, clearer toward the edges; inside a lovely orange-topaz sheen. Promotes harmony in border plantings and looks well in large formal beds.	10	100	1,000
Anton Mauve. 28 in. Enormous flowers of dull old-rose-purple outside, with dull grayish lilac edges; inside of the petals reddish violet-blue overspread with grayish brown; white base with black anthers. Very tall, strong stems giving the flowers great beauty and dignity.	\$1 50	\$9 00	\$85 00
Aphrodite. 30 in. A dark rose-pink flower throughout with a white base suffused with palest blue. Flowers of medium size on very tall, stiff stems. An improvement on Loveliness.	1 75	10 50	
Bleu Celeste. 28 in. Pale clear mauve flowers of large size, with a large white base tinged blue. One of the best of its color.	2 00	14 00	
City of Haarlem. 32 in. Large flowers of brilliant, blazing vermilion, so red that it dazzles the eyes in the sunlight. The handsomest and brightest red Darwin. Inside it has a blue-black center edged white. Splendid for bedding and late forcing.	3 50		
Duchess of Hohenberg. 26 in. Purplish lilac-blue flowers, tinged in the center with gray-lilac and brown; large white base with brilliant black anthers.	2 00	14 00	
Duchess of Westminster. 28 in. A most handsome variety with medium-sized, bright rose-pink flowers, tinged with salmon; inside rosy scarlet, with a bright yellow base.	4 00		
Frans Hals. 28 in. Very large, handsome blooms of dark violet with a mahogany tinge and a deep blue-black base and black anthers. Very pleasingly scented. Excellent for forcing.	2 50	15 00	
Giant. 28 in. Gorgeous dark violet-purple flowers, richer and deeper inside, with a very small white base surrounded by a blue-purple star. Anthers black. Tall, strong stems. Excellent for forcing and bedding.	2 00	12 50	
	2 50	16 00	

Grenadier

Clusiana

DARWIN TULIPS OF RECENT INTRODUCTIONS, continued

Gustave Dore. 28 in. Bright cherry-pink, edged pale lilac-rose; white base with a violet edge. Long-stemmed blooms of oblong shape. Good alike for indoors or bedding.....	10	100	1,000
	\$1 00	\$6 50	\$60 00
King George V. Perfect blend of cherry-red and scarlet, inside an orange-scarlet iridescence that speaks with eloquence when the flowers are half-open. Broad, recurved petals, which give a semi-double aspect to the flower. A bed of these flowers looks like so many fairy lamps.....	2 00	16 00	
Louis de la Valliere. 28 in. Lovely, lily-like flowers of coral-pink, suffused in the center with strong salmon and having a glistening sheen; small blue base with black anthers. One of the finest pink varieties on tall, strong stems.....	2 00	12 00	
The Bishop. 28 in. Dark reddish violet with a gray bloom on the outside of the petals; rich violet inside, with a small white center edged with blue. Black anthers. Flower has a beautiful ovoid form, the outer petals recurving as it develops. Strong, upstanding stems.....	5 00		

Botanical Tulips

Plant in generous clumps in good soil, preferably at the base of a fairly large sheltering rock which will serve both as protection and as a background when in flower.

Clusiana. Carmine-rose, with white edge. It is sometimes known as the "Candy-stick" Tulip because of its delicately red and white striped effect when partly open.....	10	100	1,000
	\$1 00	\$6 50	\$60 00
Cornuta Stenopetala. Crimson, with points of petals rich yellow..	2 75	24 00	
Eichleri. Large; brilliant scarlet.....	1 50	9 00	
Fosteriana. Very large; brilliant red.....	\$2 each..		
Greigi. Fiery orange-red. The foliage is most peculiarly streaked and dotted with purple-brown.....	3 50	20 00	
Kaufmanniana. White, tinted carmine, yellow center. The earliest variety and more beautiful than many late garden varieties..	2 00	16 00	
Præstans, Tall. An attractive orange-red Tulip that often bears four or five flowers on a stem.....	10 00	90 00	
Præstans, Dwarf. Blooms scarlet-red. Earlier than preceding..	9 00	75 00	
Sylvestris (Florentina). Lovely bright yellow.....	1 50	10 00	90 00

Inglescombe Pink

Orient

Cottage or May-flowering Tulips in Many Colors

The largest flowers of any Tulips are found in this class, which contains many long-pointed and lily-shaped flowers. All colors imaginable are available among them, except good blues. Many have long stems and some are shorter and some gracefully drooping so that they are excellent in front of taller sorts. They are splendid for cut-flowers and are unsurpassed for garden decoration.

Blushing Bride (Isabella; Shandon Bells). 16 in. Opening sulphur-yellow, turning to carmine-purple, with rosy white flakes. For bedding and forcing.....	10	100	1,000
Bouton d'Or (Golden Beauty). 20 in. Sunflower-yellow. Excellent cut-flower of cup form.....	\$1 00	\$5 50	\$50 00
Fairy Queen . 25 in. Violet-lilac, broadly margined coppery yellow. Perfectly formed flower and one of the most handsome varieties for bedding.....	1 00	5 50	50 00
Gesneriana lutea . 26 in. Lemon-yellow, inside buttercup-yellow. Fine, sweet-scented.....	1 00	6 50	60 00
Gesneriana rosea . 24 in. Crimson-pink, inside crimson-scarlet...	1 00	5 50	50 00
Grenadier . 21 in. Beautiful orange; very large flower.....	1 00	5 00	45 00
Idyll . Almost round in shape. Color vivid rose, inside shaded salmon, pure yellow base with blue edges.....	1 50	8 00	75 00
Inglescombe Pink . 25 in. Delicate rose-pink, tinted salmon, blue center.....	1 00	5 50	50 00
Inglescombe Scarlet . 20 in. Scarlet, black base.....	1 00	6 50	60 00
Inglescombe Yellow . 23 in. Known as the yellow Darwin Tulip. Canary-yellow. For borders and cutting.....	1 00	6 50	60 00
John Ruskin . 18 in. Apricot-rose, shaded mauve, with pale yellow edge on petals.....	1 25	7 00	65 00
Miss Ellen Willmott . 25 in. Soft chrome-yellow, changing with age to a deeper color. Strong stem.....	1 00	6 50	55 00
Moonlight . 24 in. Cup-shaped blooms 4 inches deep and 2 inches wide may be produced with ordinary care. A semi-shaded position will give them that size. The color is a lovely strong yellow with a soft yellow bloom which gives the cup that pale moonlight tint for which it is famous. The wiry stems will stretch to 28 inches in semi-shade.....	1 00	5 50	50 00
	1 25	7 00	65 00

COTTAGE or MAY-FLOWERING TULIPS, continued

	10	100	1,000
Mrs. Moon. 25 in. An especially good all yellow of a rich deep tone. It is of unusual form, the long, flaring petals curving twice, producing a vase effect instead of a cup. Brilliant yellow inside. Good perfume. Fine stem. Goes well with plantings of the strong-toned Breeder Tulips.	\$1 50	\$8 50	\$80 00
Picotee (Maiden's Blush). 24 in. Cream-white, softly pink edged, changing to a deeper pink as the flower ages. Elegant shape. For cutting and bedding.	1 00	6 00	55 00
Retroflexa. 16 in. Soft yellow; graceful recurving petals giving a beautiful lily-like effect.	1 00	6 50	60 00
Sir Harry. 22 in. Clear lavender-pink as seen in the rarest Cattleya orchids. Beautifully modeled cup, pointed and yet open, showing a lovely base of yellow and blue. At times the petals reflect a pearl-like luster. Fine size and good foliage.	1 00	6 50	60 00
The Fawn. 20 in. Lilac-white, flushed and veined soft rosy fawn. Globular-shaped flower and a very fine variety for bedding.	1 00	5 50	50 00
Vitellina. 20 in. Cream-yellow, changing to amber-white as the flower ages.	1 50	9 00	85 00
MAY-FLOWERING TULIPS MIXED. A well-balanced mixture of all the foregoing varieties. Very suitable for bedding and cut-flowers.	60	5 00	45 00

Special Offer. Ten (10) each of 6 splendid and distinct varieties of Cottage Tulips (60 bulbs), our selection, for \$5.50. Postpaid to any address east of the Mississippi River for cash with order.

Cottage Tulips of Recent Introductions

The most distinct varieties of new Tulips are found among the novelties in this section. Here the form of the flower is wonderfully varied and the colors clear and pure.

Prices on the following are for Import Orders only, which must reach us prior to August 25

Ambrosia. 25 in. Superb salmon-orange inside, with yellow and green patterned base; outside color subdued lilac-rose with gay edging of bright coral or luminous apricot. A stunning, wide-open cup of unusual size. This masterpiece has had a meteoric rise during the few years since its introduction. Its delightful perfume is a great asset.	2 00	\$15 00
Avis Kennicott. 24 in. Chrome-yellow with black base and anthers. Long flower for bedding.	1 75	12 00

Hunt's PERFECTION Bulbs

COTTAGE TULIPS OF RECENT INTRODUCTIONS, continued

Carrara. 24 in. Graceful, fairy snowballs on light green stems. Perfectly pure white, no other tints. Our first choice in white Cottage Tulips. Large, rounded cups. Does very well in pans in the greenhouse for middle-March blooms. Many awards of merit for its perfect form, purity, and long-lasting texture.....	10	100
Dido. 28 in. The delightful copper tints of the new roses can now be had in Tulips. In Dido the body color is a deep coral-pink, edging into light orange; the inside is like costly silk, flaming orange with green and yellow base. Full-blown flowers are 3½ inches deep. In the newer tints this variety will captivate you.....	\$2 00	\$15 00
Dulcinea. 28 in. An extra-early forcing variety. Glowing orange-red, with yellow and greenish base.....	2 75	25 00
Orient. Large, bold flower of remarkable color—salmon with bright rosy carmine and orange-red edges.....	1 00	7 50
Themis. Pure white flower of ideal shape and size. Suitable for forcing and bedding.....	2 00	17 50
Twilight. 22 in. Pale violet-mauve with brown edge, striped dark violet, white base with blue halo.....	3 50	
Union Jack (Distinction). 22 in. Heliotrope-violet, feathered deep purple with a few markings of white.....	1 75	12 50
Walter T. Ware. 18 in. Deep golden yellow. One of the best of its color among the late Tulips.....	1 75	12 50

Bybloem and Bizarre Tulips

These Tulips are an old race which has been grown in France and Holland for many years. Bybloem Tulips are striped and feathered rose or violet on a white ground. The Bizarre Tulips have dark brown stripes and feathering on a yellow ground. While not growing so tall as the Breeder and Darwin Tulips, they flower at the same time, and they are very useful for planting in the herbaceous border, etc.

	10	100
Bizarre, Mixed. An excellent mixture of the choicest named sorts.....	\$1 00	\$6 00
Rose Bybloem, Mixed.	1 00	6 00
Violet Bybloem, Mixed.	1 00	6 00

Rembrandt Tulips

These are Darwins in size, shape, and stature, but the colors are in flakes or "feathers" sometimes flame-shaped and always attract favorable attention.

	10	100
Apollo. Rosy lilac and white, with deep crimson markings.....	\$1 00	\$7 00
Butterfly. Soft lilac, with deep carmine stripe.....	1 00	7 00
Hebe. Pale lilac-white, splashed deep brown.....	1 25	7 50
Red Prince. Fiery red flames on rosy ground. One of the best Rembrandts.....	1 25	8 00
Rosy Gem. Rosy lilac and white, with deep red markings.....	1 25	8 00
Salome. Carmine-rose, with white markings. Very fine.....	1 50	9 00
Victor Hugo. Scarlet and white.....	1 25	8 00
MIXTURE. All the above varieties.....	1 00	6 00

Collection of Rembrandt Tulips, 10 each of 7 varieties, for \$8, postpaid

Parrot Tulips

Very large varieties with drooping, parrot-like buds and wide-spreading, fringed and frilled petals with curious markings. Unusual and striking as cut-flowers but not good for bedding or mass display.

	10	100	1,000
Admiral of Constantinople. Red and orange.....	\$1 00	\$6 00	\$50 00
Cramoisi Brillant. Brilliant crimson.....	1 00	6 00	50 00
FANTASY. Beautiful salmon-rose with ragged edges and fantastically shaped petals with erect, long, strong stems.....	15 00		
Lutea Major. Yellow, with crimson and green stripes.....	1 00	6 00	50 00
Perfecta. Bright yellow, scarlet and green.....	1 00	6 00	50 00
SPLENDID MIXTURE. All the above varieties.....	75	5 00	45 00

Breeder Tulips in Tints and Tones of Royal Loveliness

These are the old Dutch self-colored Tulips neglected for many years, which modern taste for unusual colors has called into prominence once more. Nature's happiest color combinations of purple and bronze, gray and lilac, brown and orange, are revealed to us in this group. The flowers are mostly large, of perfect form, and are borne on tall, strong stems. They may be successfully brought into bloom in the greenhouse by the first week of April. In the garden they combine well with the Darwins, and, except in range of color, are indistinguishable from them.

Bronze Queen (Clio; Biscuit). 28 in. Buff-yellow, inside shaded golden bronze, yellow base. For borders, and a good forcer.....	10 \$1 00	100 \$6 50	1,000 \$60 00
Cardinal Manning (Goliath; Kingscourt). 28 in. Claret, flushed rosy bronze, changing to rosy violet.....	1 00	6 50	60 00
Copernicus . 24 in. Dark coppery bronze shaded with old-rose....	1 25	7 50	70 00
Golden Bronze . 25 in. Outside distinctly old-gold, with a shading of lavender, rising from the base nearly to the tips of the petals; inside silky brown, shading to golden bronze; lovely yellow center with pale green seed-pods.....	1 25	8 00	75 00
Jaune d'Œuf (Sunrise). 26 in. Coppery yellow, with broad stripe of lilac, inside bronze-yellow with dark green center. A splendid variety for forcing and fine for borders.....	1 00	7 00	65 00
Marie Louise . 24 in. Old-rose, flushed salmon-orange, yellow base streaked olive.....	1 00	7 00	65 00
Medea . 30 in. Crushed strawberry shaded heliotrope with yellow center. Large flower.....	1 00	7 00	65 00
Panorama . 26 in. Warm terra-cotta with reddish mahogany, a quiet, even tone which covers the huge goblets entirely. The large petals are curved in at the top, so that even on very bright days the flower appears as if closed. A look inside is rewarded by a display of scintillating orange-mahogany on an olive-green base. Easy forcing tendency.....	1 00	6 50	60 00
Prince of Orange . 27 in. Terra-cotta with orange edge, the open petals warm orange on yellow base, figured with black arrows. Cups elongated, filled with abundant perfume. Ideal Tulip for massed beds and solid border plantings.....	1 25	9 00	80 00
St. James . 26 in. Dark lilac, shot through with deep purple and brown tones which lighten up in the edge of the petals to a bronze-brown; tints of gorgeous dark brocade. Rather open, pointed petal form permitting a glimpse of the brighter coloring inside the cup. A reasonably priced variety of great interest.	1 25	7 50	70 00
Turenne (Macmahon). 30 in. Soft purplish brown, the outer petals shaded heliotrope, with broad margin of amber-yellow, yellow base.....	1 25	9 00	80 00
Velvet King . 26 in. Strong violet-purple of a nice, even tone; inside much brighter; base passing from blue into white. Often possesses an additional petal, and when particularly happy in a preferred position, the plant develops an extra flower from the upper leaf-base. Very sturdy. A high-priced variety for many years, but we were able this year to buy a superb stock of it at a great saving.....	1 50	10 00	90 00
Yellow Perfection (Old Gold). 26 in. Coppery yellow, with edges of softer tone. Inside coppery brown, yellow base starred green.	1 25	7 50	70 00
BREEDER TULIPS MIXED . A fine selection of foregoing varieties. For massing and bedding.....	75	5 50	50 00

Breeder Tulips of Recent Introductions

In this section we include a few of the finest and handsomest of this aristocratic group. Mostly, the flowers are of superb form and of interesting color combinations in the quieter and more somber shades.

Prices on the following are for Import Orders only, which should reach us prior to August 25

		10	100	1,000
Annie McGregor. 24 in. Deep rose with white base. Fine for planting in borders.....		\$1 75	\$14 00	
Attraction. 26 in. Bluish violet-purple outside, glowing purple inside on a white base.....	1 50	9 00		
Bacchus. 32 in. Deep violet-blue, with darker bloom, inside light violet-blue, with white star at base.....	1 75	12 00		
Dom Pedro. 24 in. Deep coffee-brown, with margin of golden brown outside, the turned petal showing a yellow and olive base, with overtones of bright mahogany. No flower succeeds in creating a similar symphony in related hues. It is unique, moreover, very fragrant and of a large, beautifully rounded form. Interesting vase Tulip on account of its color and delicate fragrance.....	1 50	10 00	\$90 00	
Feu Ardent. 26 in. Crimson-red, shaded mahogany. A brilliant flower with yellow base.....	1 50	10 00	90 00	
Garibaldi. 32 in. One of the finest Breeder Tulips ever offered. Lilac-bronze edged primrose-yellow. Beautifully shaped flower borne on long stem.....	7 50			
Godet Parfait. 30 in. Dark plum-violet, with white base and blue halo. Large flower of attractive color.....	1 50	10 00	90 00	
Goldfinch. 30 in. Only in Breeder Tulips can one find such golden tints of fine tortoise, luminous yellows, and warm browns in happy harmony. We selected Goldfinch as our very best offering in this color. A gracefully formed Tulip which will grow well in every position, admired wherever placed. Rather scarce and a privileged listing by us.....	1 50	12 00		
Indian Chief. 34 in. Coppery red, flushed purple. Long and artistic flower carried on long strong stem.....	10 00			
James Watt. 26 in. A new Breeder. Deep violet, flushed bronze; inside dark mahogany, shaded brown.....	2 50	16 00		
La Turquoise. 26 in. An unusual color combination—brownish violet, with broad yellow edge. Handsome shaped flower.....	1 75	12 00	110 00

Lily-flowered Tulips (May-flowering)

This handsome and distinct new race of Tulips has been obtained by crossing *Tulipa retroflexa* with a pink Darwin variety, and the result is a sturdy growing form with large, substantial flowers that still retain the form and elegance of *Retroflexa*, all segments reflexing a little at the tips. Certain of the finer Cottage Tulips, like Grenadier, Miss Ellen Willmott, Picotee, etc., really belong to this group.

Adonis. Long-shaped flower, reflexed petals; vivid rosy red.....	10 \$1 00	100 \$6 00
Artemis. Long-stemmed; elegantly reflexed petals; bright carmine-rose, with pure white base.....	1 00	6 50
Fulgens. Rich deep crimson. Very attractive.....	1 00	8 00
Marvel. Very distinct, sweet-scented variety, inside old-gold, outside salmon-rose, edged yellow.....	1 00	6 50
Sirene. 20 in. Superb example of the lily-flowered type, and a beautiful addition to our list of outstanding varieties. Wonderful cherry-rose on large pure white base. Resilient stems. Its fascinating form has won many awards. Splendid for March forcing.....	1 00	6 50
Solfatare. Pale primrose with long reflexing petals. Very distinct.....	1 00	7 00

Be sure to plant some *Lilium Regale* this autumn, illustrated and described on pages 35 and 37

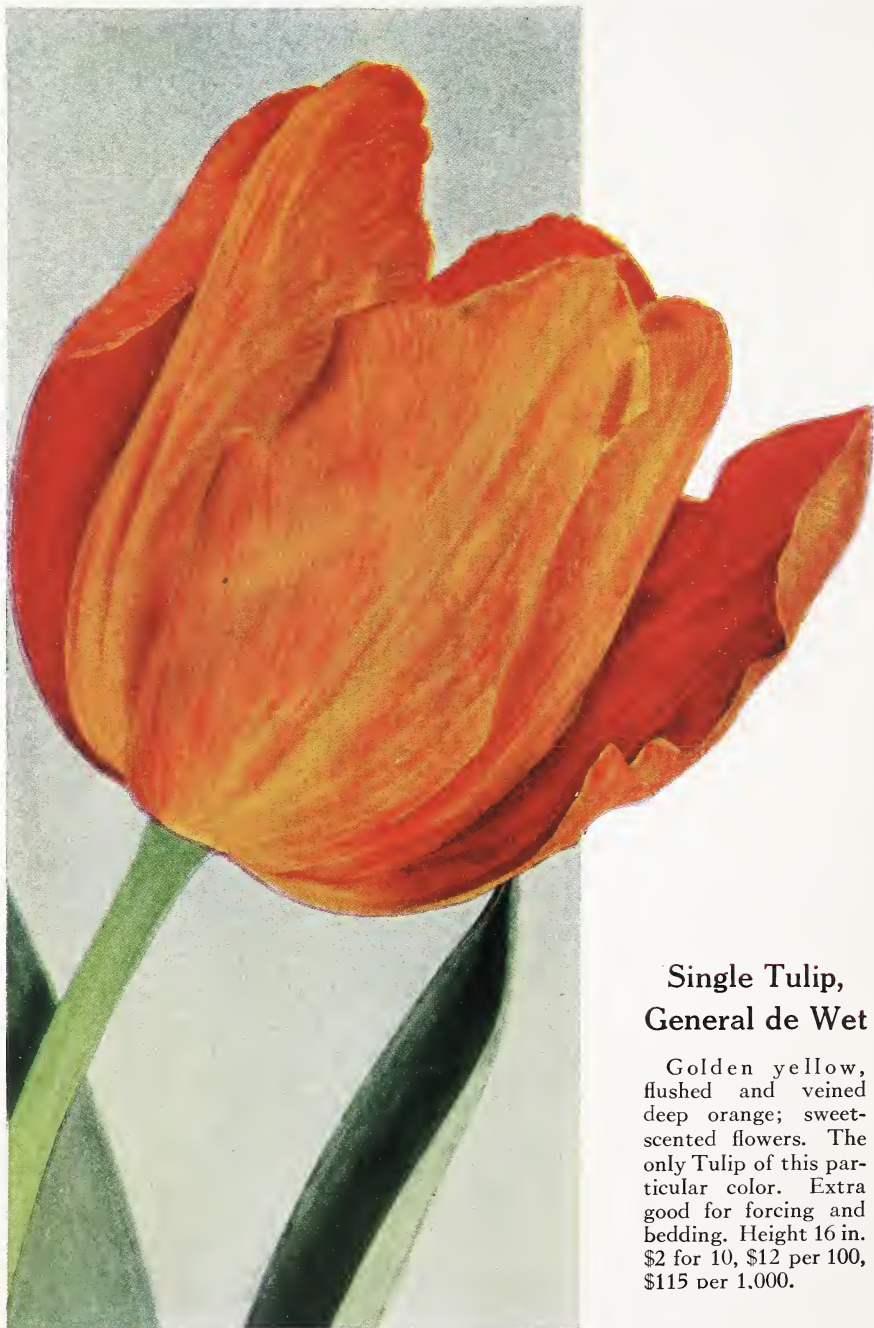

Bed of Single Early Tulips

Single Early Tulips

The old-fashioned Single Early Tulips are unsurpassed for bedding and with few exceptions, excellent for forcing. Gardeners are learning that the wholesale discarding of this class, which took place a few years back, was a mistake. The monotony of the solid beds of red and yellow, and the acres of Keizerskroon which used to make our parks and gardens offensive, will never return, but such lovely things as Diana, De Wet, Lady Boreel, Pink Beauty, President Lincoln, and Rose Luisante are indispensable in any well-planned garden. Blooming with the narcissus, at a time when bright color is sorely needed, they are treasures indeed. And the handsome thing about them is that they are gone by the time the space is needed for Annuals and bedding plants, so that there is no blank interval in the effective use of the ground. The following are the cream of the best varieties.

	10	100	1,000
Artus. 9 in. Crimson-scarlet; fine for bedding.....	\$0 80	\$5 50	\$50 00
Belle Alliance (Waterloo). 15 in. Cherry-red, of blazing brilliance, with a dazzling yellow center. One of the brightest and most graceful early varieties. Very good for forcing and bedding.....	1 25	7 00	65 00
Brilliant Star. 12 in. Scarlet, with black center. Early.....	1 00	6 50	60 00
Calypso. 12 in. Pale creamy yellow, with a silvery tinge—very soft and delicate tone. One of the prettiest and most unusual shades in this class.....	1 00	6 50	60 00
Cerise Grisdelin. 13 in. Violet-lilac, white edged, yellow base. Handsome bedder.....	1 25	7 00	65 00
Chrysolora. 14 in. Golden yellow flowers of large size and fine form. One of the very best cheaper varieties in this color. Splendid for planting outside.....	1 50	8 50	80 00

**Single Tulip,
General de Wet**

Golden yellow, flushed and veined deep orange; sweet-scented flowers. The only Tulip of this particular color. Extra good for forcing and bedding. Height 16 in. \$2 for 10, \$12 per 100, \$115 per 1,000.

Hunt's PERFECTION Bulbs

SINGLE EARLY TULIPS, continued

	10	100	1,000
Cottage Maid (La Précieuse). 11 in. Creamy white, with broad margin of crimson-pink.	\$1 00	\$6 50	\$60 00
Cramoisi Brillant . 12 in. Glowing scarlet. Recommended for forcing.	80	5 50	50 00
Diana . 11 in. Pure snow-white flowers on very long stems; unexcelled for forcing and exceedingly lovely in the garden for its delicate grace and enchanting color.	1 00	6 50	60 00
Duchesse de Parma . 15 in. Dull blood-red, edged deep yellow. Excellent for bedding.	1 25	7 50	70 00
Flamingo . 13 in. Carmine-rose, shaded lighter. Large, crinkled flowers.	1 00	6 50	60 00
Fred Moore . 15 in. Apricot-brown, shaded at edges of petals to dull orange-yellow. Early forcing.	1 00	6 50	60 00
General de Wet . See page 24.			
Golden Queen . 14 in. Golden yellow. An early forcer.	1 25	9 00	85 00
Ibis . 13 in. Carmine-rose and white with yellow base. Great improvement on the well-known Flamingo, but of a deeper color.	1 25	8 00	75 00
Joost Van den Vondel . 13 in. Dull garnet, irregularly striped and flaked white.	1 00	7 00	65 00
Keizerskroon (Grand Duc). 16 in. Bright crimson-scarlet, edged golden yellow. For bedding and forcing.	1 50	11 00	100 00
King of the Yellows . 12 in. Lemon-yellow. Early. Very handsome for cutting.	1 25	8 50	80 00
Lady Boreel . 11 in. Snow-white. Large, long flower. Best white for beds. A sport of Joost Van den Vondel.	1 25	8 00	75 00
La Reine Maxima . 13 in. White, faintly edged pale rose. An improvement on the old La Reine.	1 00	6 50	60 00
La Remarquable . 14 in. Brilliant claret-purple, edged and tipped old-rose. Large flower of beautiful reflexing form. Equally fine for bedding or midseason forcing.	1 25	8 00	75 00
Mon Tresor . 12 in. Pure yellow. The best yellow Tulip for early forcing.	1 50	10 00	95 00
Ophir d'Or . 12 in. Clear golden yellow. Very good for bedding purposes.	1 50	10 00	95 00
Pelican . 14 in. Large, pure white, very substantial flower.	1 00	7 50	70 00
Pink Beauty . 13 in. Very lovely flower with deep ovoid petals. The three inner petals are brilliant scarlet-pink and the three outer ones are bordered with the same color, leaving a long, triangular white center running to a point at the tip, so that the flower, on the outside, appears to have scarlet and white in broad stripes. The base of the flower is white, with an intense yellow center and orange-yellow anthers. This is one of the handsoimest Tulips in any class. No Darwin variety can approach it in brilliance and sheer loveliness.	2 00	12 00	
Pottebakker White . 14 in. For bedding and forcing.	1 00	7 00	65 00
President Lincoln . 14 in. A charming Tulip of soft magenta-violet. An unusual color in this class, and excellent for bedding in close connection with pale yellow narcissus which bloom at the same time.	1 00	7 50	70 00
Prince of Austria . 14 in. Fine orange-red, sweet-scented.	1 00	6 50	60 00
Proserpine . 14 in. Claret-red. The earliest variety for forcing and also excellent for bedding.	1 50	9 50	90 00
Queen Flora . 13 in. New forcing variety. Deep rosy pink.	1 50	8 00	70 00
Rising Sun . 16 in. Deep golden yellow. Excellent bedder. A sport of the old Duchesse de Parma.	1 50	9 50	90 00
Rose Griselin . 11 in. Creamy white with a broad margin of mauve-rose. Extra good for forcing.	1 00	6 50	60 00
Rose Luisante . 14 in. Brilliant deep rose-pink. Superb for bedding or late forcing.	1 50	8 50	80 00

SINGLE EARLY TULIPS, continued

Thomas Moore. 15 in. Fine for early forcing. Sweet-scented; rosy terra-cotta petals edged orange-yellow.....	10	100	1,000

Narcissus, Glory of Sassenheim

Narcissus That Flower from March to May

Narcissus, or Daffodils, vie with early tulips for popularity in spring gardens. They bloom from March into the middle of May. Many varieties may be forced in green-houses or grown in pots or dishes in the home, for they are very easy to cultivate.

Large Trumpet (Ajax)

These Narcissus, as a rule, are taller and more robust in general make-up than those in any other group. The trumpet is as long as the segments of the perianth, or longer, and is usually yellow or creamy white without any tinge of red.

Ajax Bicolor

These have white perianths and yellow trumpets.

	10	100	1,000
Cervantes. Very early. Primrose trumpet, with creamy perianth. \$2 25	\$15 00		
Empress. Sulphur-white perianth, with chrome-yellow trumpet; very good for late forcing variety.			
Mother Bulbs. XXX.....	2 50	17 50	\$165 00
First-size Bulbs. XX.....	2 00	13 00	120 00
Glory of Sassenheim. White perianth; golden yellow trumpet. Large flower of good substance.....	2 50	20 00	185 00
Princeps. Primrose perianth and yellow trumpet. Very free blooming and an excellent variety for forcing.			
Mother Bulbs. XXX.....	1 75	11 00	100 00
First-size Bulbs. XX.....	1 25	8 00	70 00

Single Blue

Bismarck. Sky-blue; very large spike; excellent for forcing.

Dr. Lieber. Lavender-blue, tinged violet; large, perfect spike.

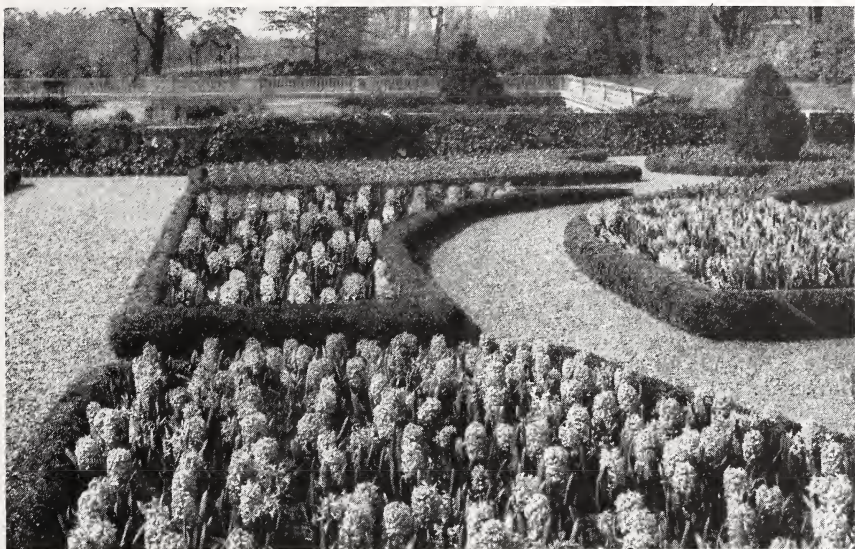

Electra. Pale blue, white eye; very large flower, a long truss of perfect bells.

Duke of Westminster. Large deep purplish blue bells with white center.

Grand Maitre. Deep lavender-blue; large and compact truss; old popular variety.

King of the Blues. Compact truss of dark blue bells; late variety.

Lord Balfour. Lilac-rose, tinged violet; a very pretty combination.

SINGLE BLUE HYACINTHS, continued

Menelik. Purplish black; very distinct; large, compact truss.

Queen of the Blues. Pale azure-blue; large spike; beautiful.

Schotel. Light blue; good forcer. long, perfect spike.

Sir William Mansfield. Bright purple; good truss.

Single Yellow

City of Haarlem. Pure yellow; large truss; extra fine exhibition variety.

Yellow Hammer. Rich yellow; beautiful truss.

Single Red and Rose

Garibaldi. Glowing crimson-red; very early.

General de Wet. Light rose; fine broad spike.

Gertrude. Rosy pink; large, compact truss; old and still popular.

Gigantea. Blush-pink; compact spike.

Lady Derby. Rose-pink; large spike; excellent for pots.

La Victoire. Deep carmine-rose; very fine spike; splendid for exhibition.

Marconi. Bright rose; large, compact truss.

Queen of the Pinks. Rosy pink; extra large bells; perhaps the best of this shade.

Roi des Belges. Deep red; compact spike.

Victor Emanuel. Rosy red; fine broad spike; early; a charming red variety.

Single White

Arentine Arendsen. Pure white; extra early.

Correggio. Pure snow-white; large truss.

General Vetter. Creamy white; large spike.

Hein Roozen. Pure white; very fine flower.

L'Innocence. Pure white; the best white for all purposes.

La Grandesse. Pure white; fine bells; best exhibition white variety.

Madame Kruger. Pure white; large bells and spike.

Queen of the Whites. Snow-white; very heavy spike.

White Lady. Pure white; very large truss.

Lilium regale

Hardy Garden Lilies for Fall and Spring Planting

Hardy Lilies are among the most gorgeous subjects for the garden that can be planted. When happily placed they throw up sturdy stems in an eager desire to unfold their wonderful flowers above the heads of their companions, holding the admiring gaze of all who pass.

All Lilies do not like the same conditions. The one universal requirement for all is absolutely perfect drainage. The loose, scaly bulbs which Lilies produce are susceptible to rot in wet soil, and it will pay to go to some pains to be sure that the ground for them is properly drained. When Lilies are well established in the garden, it is well to feed them with a top-dressing of manure after the tops have died down in the autumn. It is better to omit manure from the preparation of the Lily-bed before planting.

Some Lilies make two sets of roots, one set below the bulb which nourishes and stores up the food for next year's flowers, and another set above the bulb which supplies moisture and soil-elements for this year's flowers. The bulbs of such Lilies in their natural homes are usually found very deep in the soil. In planting in the autumn, it is wise to set such Lilies 6 to 8 inches deep. However, since the roots of Lilies have strong, contractile power, they will seek their own level eventually, so that errors in the depth of planting will be corrected by the Lilies themselves.

Another group of Lilies makes no stem-roots at all. These bulbs should not be put down more than twice the depth of the bulb itself.

Almost all Lilies need a mulch, either of leaves or some living plant, to protect the base of the stems from the summer sun. A few of them do very well when interplanted with low shrubs, such as rhododendrons and azaleas. Almost all of them will benefit by giving the tops plenty of sky-room, so that the flowers can have sunlight.

Lilium candidum

The most beautiful Lilies are *Lilium auratum*, *L. regale*, *L. speciosum*, varieties *Melpomene* and *Album*, *L. tigrinum*, and *L. Henryi*.

***Auratum** (The Golden-banded Lily of Japan). One of the stateliest of all the hardy Lilies; grows 3 to 6 feet high and bears twenty or more large and fragrant flowers 8 to 10 inches in diameter. Planted in clumps of six or so, they make an attractive sight. Flowers white, spotted deep red, with bright yellow band running through the center of each petal, in August.

Mammoth Bulbs.....	\$7 50	\$55 00
Extra-large Bulbs.....	6 00	45 00
Large Bulbs.....	3 50	27 50

Candidum (Madonna or Annunciation Lily). The bulbs we offer are the true, hardy, Northern French-grown; arriving here in September, they should be planted at once, in groups of from 3 to 6 dotted among the taller-growing perennial plants in the herbaceous border. They make their leaf growth in October, then die down and bloom late the following June—stately spikes of large white, fragrant flowers with yellow anthers. The new Hybrid Delphiniums (Wrexham strain), *Campanula Pyramidalis*, and tall growing pink *Gladiolus*, planted in proximity make a border of exquisite charm in June and July.

Hunt's PERFECTION Bulbs

HARDY GARDEN LILIES, continued

Batemanniæ. Beautiful Japanese variety, growing 3 feet high, with six to eight apricot-colored flowers held erect on a stem. Blooms in July and August.	10	100
	\$4 00	\$30 00
Canadense (Meadow Lily). A stout-stemmed Lily with whorled leaves, bearing a spreading, loose panicle of drooping, bell-shaped flowers, usually orange or scarlet spotted with brown and maroon. This Lily seeks low, moist ground and needs a mulch of leaves or plants about its roots, with the tops open to the sun. 2 to 5 feet high. Flowers in June and July.	3 00	20 00
Croceum. A strong-stemmed Lily bearing erect flowers in a pyramidal cluster in June and July. The blooms are yellow and orange, spotted red, and very freely produced. 3 to 4 ft.	7 50	55 00
*Henryi (Yellow Speciosum). 4 to 5 ft. In form and habit resembles <i>L. speciosum</i> . Flowers shaded yellow, slightly varying in color, with a distinct and waxy green center. Blooms during August and September.	8 00	60 00
Regale. 3 to 4 ft. The finest and most easily grown is the Lily producing large, flared trumpets suffused with gold and yellow on the inside and slightly stained with purple on the backs of the outer petals. The stem is stout and very wiry, so that the plant takes up very little room after flowering. It blooms immediately after the Madonna Lily and is one of the finest plants to be found in gardens.		
Mammoth Bulbs. XXX.	10 00	90 00
Large Bulbs.	9 00	75 00
*Speciosum Album. 3 to 4 ft. This is a very dainty white Lily. It flowers in the border or amongst the shrubbery at the same time as <i>L. auratum</i> , and is one of the most popular varieties. Used extensively in pots for greenhouses.		
Extra-large Bulbs.	10 00	75 00
Large Bulbs.	7 00	50 00
*Speciosum Melpomene. Large, dark crimson spotted flower of striking appearance. Profuse flowering.		
Mammoth Bulbs.	10 00	75 00
Extra-large Bulbs.	8 00	60 00
Large Bulbs.	6 00	45 00
*Speciosum Rubrum. 3 to 4 ft. Bears an abundance of spotted rose flowers. Blooms outdoors August and September.		
Mammoth Bulbs.	10 00	75 00
Extra-large Bulbs.	8 00	60 00
Large Bulbs.	6 00	45 00
Tigrinum Splendens (Tiger Lily). 3 to 4 ft. The popular, old-fashioned Tiger Lily is well known by its brilliant orange flowers spotted with maroon and black. It enjoys full sun with a ground-cover. Very hardy. Blooms in August.	3 50	25 00
Tigrinum flore-pleno (Double-flowering Tiger Lily). Like above but double flowers.	4 00	30 00

Cold-Storage Lilies

We carry in cold storage a large stock of the following Lilies for shipment at any season of the year: **Henryi**, **Regale**, **Speciosum Album**, **Speciosum Melpomene**, and **Speciosum Rubrum**.

We make no extra charge on above prices for this service.

Bulb Fibre. A natural peat fibre, full of nutritious properties for the growing of flower bulbs indoors. This compost acts as a moisture-retainer, which promotes the growth of roots on the bulbs, at the same time releasing its organic fertilizing elements in soluble form, developing and maintaining a steady and sturdy growth on the bulbs until the flowers have matured. **Peck \$1.75, bushel \$6.50.**

Unusual Plants for House and Gardens

Spiraea (Astilbe)

Extra-Large Clumps

We recommend the following varieties for forcing or outdoor culture. The clumps we offer are very large and cannot fail to give satisfaction.

CULTURE.—They require a compost of equal parts of loam and leaf-mold and should be potted singly in 6 or 7-inch pots, in October or November. Place in coldframe until required for forcing; water freely when growth begins. Remove to coldframe after flowering and plant out in sunny position in June.

|--|---------------|
| America. Lilac-rose—a beautiful orchid color with large, feathery flower-spikes and beautiful foliage. This variety is one of the very finest and holds its color well. Medium height. (13 weeks)..... | 10
\$10 00 |
| Ceres. Delicate lavender-pink. Magnificent plumes, frequently measuring over 1½ feet, and altogether one of the showiest of all Spiræas. The foliage is light green; plant very graceful and tall. (13 weeks)..... | 17 00 |
| Cassandra. Dense, very double flowers of rosy red—the deepest color yet developed. Graceful foliage. (15 weeks)..... | 17 00 |
| Gladstone. Well known and best white variety. Flower-spikes are cream-white, large, full, and feathery. Foliage is compact and deep green. Earlier than the pink kinds. We have a fine stock. (10 weeks)..... | 11 00 |
| Gloria Superba. This new variety has attained great popularity because of its brilliant dark pink color. Produces huge panicles of stately blooms borne on long stems. We have a very fine stock of this variety. (12 weeks)..... | 12 00 |
| Juno. Deep lilac-rose. Graceful, spreading foliage. Slender flower-spikes of good shape. Tall grower and latest of all. (14 weeks)..... | 13 00 |
| Kriemhilde. A pleasing and peculiar shade of soft creamy salmon with red flower-stems. Heavy, well-shaped plumes and graceful foliage. Medium height. (14 weeks)..... | 13 00 |
| Mont Blanc. Clear milk-white flowers. Deep green foliage; of dwarf habit. Free flowering. (14 weeks)..... | 10 00 |
| Peach Blossom. True peach-blossom color with red stamens. Full light green foliage. Holds color well. Very fine. (13 weeks)..... | 10 00 |
| Philadelphia. Deep lavender-rose. Tall and sturdy grower with abundance of graceful foliage. Heads are full and feathery and the whole plant is large. (14 weeks)..... | 10 00 |
| Princess Mary. Deepest rose-pink in commerce today. Flowers have slight lilac cast. Vigorous grower and in every respect a beautiful variety. Medium height. (14 weeks)..... | 11 00 |
| Queen Alexandra Improved. Soft light pink, large, individual recurved flowers, borne on heavy plumes. Tall and midseason. Foliage is abundant and of spreading habit with red stems and veins. (12 weeks)..... | 10 00 |
| Rubens. Attractive deep rose, with red flower-stems. Flat-growing foliage of glossy dark green. Medium height. (13 weeks)..... | 11 00 |

Amaryllis

For growing in the house or conservatory, few plants produce as striking a display, with so little trouble, as Amaryllis. The bulbs should be potted in the fall, be kept rather dry all winter until growth starts in early spring when they should be watered plentifully, fertilized and lightly shaded. A few weeks, and they break into immense lily-like blooms of gorgeous color and form.

Vittata Hybrids. This selection contains a mixture of the finest unnamed seedlings in cultivation. The colorings and markings are unique and provide a show of unexampled beauty. Extra-large, sound bulbs of enormous size. \$1.50 each, \$13.50 for 10.

Iris (Fleur-de-lis) Add Character to Modern Gardens

Holland Iris

Iris Tingitana and Spanish Iris may be grown both in and outdoors. If planted indoors they should not be forced as they will be apt to come blind; given a slow treatment they will bloom without difficulty in the early spring.

Imperator. Early-flowering. Brilliant blue, large and well-shaped flowers on long, strong stems. The best for greenhouse culture. \$1.75 for 10, \$12 per 100, \$110 per 1,000.

Tingitana. Early-flowering Dutch Iris. Produces large, well-shaped blue flowers on long, strong stems. If grown cool in greenhouse will flower early in March. Will not stand forcing. \$1.75 for 10, \$12 per 100, \$110 per 1,000.

Wedgwood. Was awarded First Prize at last year's International Flower Show, New York. Very early, large blue flower borne on long, strong stems. Splendid for greenhouse, flowering in March. \$4 for 10, \$25 per 100.

Albert Cuypp. White with yellow blotch.

Anton Mauve. Soft lilac-blue.

Frans Hals. Creamy yellow, shaded light blue.

Hart Nibbrig. Bright, clear blue.

Hobbema. Pure white with yellow falls, shaded light blue.

Rembrandt. Early. Deep blue with orange dots.

Yellow Queen. Fine-shaped flower of uniform golden yellow. \$1.75 for 10, \$12 per 100.

Any of the above varieties, \$1.50 for 10, \$10 per 100, except as noted.

Spanish Iris

Cajanus. Very fine canary-yellow, with orange blotches on the falls.

King of the Blues. Deep blue; large-flowered.

King of the Whites. Purest white, with orange blotches on the falls.

King of the Yellows. Bright yellow.

Prince Henry. Beautiful shade of bronze.

Queen Emma. Deep yellow. One of the largest varieties.

All named varieties, \$1.50 for 10, \$9.50 per 100, \$90 per 1,000

SPANISH IRIS, MIXED. A fine mixture of the above varieties; suitable for bedding and for cutting. 90 cts. for 10, \$8.50 per 100, \$80 per 1,000.

Spanish Iris

Hardy Bulbs for Naturalizing

NATURE never plants her flowers in beds and borders. She uses a wide brush and plenty of color, and makes broad sweeps across the big outdoors. To imitate Nature and to surpass her in coloring is no small achievement, but it can be done by liberal planting of Hardy Bulbs suitable for naturalizing.

In naturalizing bulbs, plant them irregularly. Fill a basket with them and spill it on the ground. Plant the bulbs where they fall—close together in places, far apart in others. Take a quantity of bulbs and dribble them over the ground as you walk. Plant them where they fall. Make no attempt to be systematic or symmetrical. Nature does not work that way. Plant the bulbs with a dibble, making sure that there is no air-space beneath them, then leave them to the care of the great mother in her own outdoors.

CROCUSES. Large, trumpet-like flowers which come in February and March, before their leaves. About 6 inches high. Splendid on hillsides and banks among some low ground-cover or leaves. They may be had in shades of Blue, White, Striped, and Yellow. Extra-large bulbs, mixed colors, \$2.75 per 100, \$24 per 1,000. For separate colors, see page 34.

CHIONODOXA (*G l o r y - o f - t h e - S n o w*). Charming flowers somewhat like scillas, except that the blooms are held erect and are in many variations of blue and lavender. For prices and varieties, see page 43.

FRITILLARIA. There are two kinds: the checkered Guinea-Hen Flower for meadows and stream-sides, and the Crown Imperial for showy spots in neglected corners. See page 41.

HELLEBORUS (*The Christmas Rose*). Under trees or sheltering shrubs, with a slightly sunny exposure, these evergreen plants will produce their large, anemone-like flowers from November until March. See page 42.

LEUCOJUM (*Spring Snowflake*). Charming, bell-like flowers somewhat like a snowdrop, but larger and flowers later. See page 44.

LILY-OF-THE-VALLEY. Beautiful foliage for a ground-cover. Likes shade. Flowers sweet and fragrant. See page 42.

MUSCARI (*Grape Hyacinth*). Charming blue flowers like clusters of beads. 6 to 12 in. Plant in meadows. See page 44.

NARCISSUS. Plant them under trees, in meadows, beside brooks, on hillsides—wherever a sweep of gold and creamy colors is desired in early spring. Combined with scillas and muscari, they make a lovely picture. See pages 27–31 for prices.

SCILLAS. Lovely blue flowers of the most exquisite tint. They bloom very early, covering the ground with sheets of blue, and spread quickly, soon taking possession of the space allotted them. *Sibirica* is best for naturalizing. The *Campanulata* varieties are taller and later. See page 44.

SNOWDROPS (*Galanthus*). Earliest flower of spring, with green and white bells peeping above the later snows. Plant on a sunny slope. See page 44.

SPECIES TULIPS. Charming, showy flowers in a wide variety of color. See pages 18 and 19 for varieties and prices.

WINTER ACONITES. Brilliant yellow flowers which appear in late winter and early spring. Fine under trees and among stones. See page 44.

Miscellaneous Imported Bulbs for Spring Flowering

Chionodoxa

Lovely blue and lavender flowers much like scilla's, except that the flowers are held erect, and are useful for the same purposes.

	10	100	1,000
Luciliae (Glory-of-the-Snow). Blue with white center.....	\$0 50	\$2 50	\$20 00
Sardensis . Intense bright blue.....	50	2 75	24 00

Colchicum (Autumn Crocus)

Autumnale major. Planted in September, they produce handsome flowers like large rosy lavender crocuses within a few weeks. The foliage comes in spring and dies down in summer.

They are permanent, and increase. Lovely for autumn color. . . 3 50 30 00

Cypripediums (Native Orchids or Ladyslippers)

These hardy plants require acid soil and partial shade. The delicately beautiful blooms have a large, pouches petal or "lip," forming the "slipper," with curiously curled standards or waved perianth of petals and sepals behind it, usually of contrasting colors.

Acaule . Broad leaves, with a single stem between them, bearing a large pink flower. Strong acid soil, a somewhat dry situation, and plenty of shade. One of the loveliest. It may be forced gently in pots with great success.....	10	100	\$3 00 \$20 00
Pubescens (Yellow Ladyslipper). Erect, leafy stems bearing several yellow-pouched flowers of great charm, daintily spotted with brown. Acid soil, moist ground, and shade.....	3 50	30 00	
Spectabile (The Queen's Orchid). Similar to Pubescens in habit, with larger flowers. Pouch rose-red or white, stained rose. Peaty, sour soil, plenty of moisture and shade. A swamp plant in the wild. The handsomest native Orchid.....	5 00	45 00	

Gloriosa

Roehrsiana (Climbing Lily). A superb, lily-like climber, with slender stem, 6 to 10 feet high, bearing a profusion of orange-red flowers, like delicate tiger lilies. Beautiful in conservatory or greenhouse. Dormant tubers in October.....

1 50 12 50

Iris Germanica (Bearded Iris)

Popular garden perennials for showy landscape effects. We list a selected few of reasonable price and charming colors. S. means standards, or erect petals; F., falls, or the drooping petals.

	10	100
Cottage Maid . S. gray-blue; F. white.....	\$2 50	\$16 00
Hector . S. yellow, tinged red; F. dark crimson.....	2 50	16 00
Khedive . S. lavender; F. white, tipped lavender and veined with brown.....	2 50	16 00
Loreley . S. light yellow; F. violet, edged pale yellow.....	2 50	16 00
Perle . S. light lavender; F. a darker shade.....	2 50	16 00
Rhein Nixe . S. pure white; F. rich blue edged white.....	2 50	16 00

Iris Sibirica (Siberian Iris)

Grass-like foliage and dainty, bird-like flowers on erect stems. Excellent for cutting. The flowers are lasting, and their clear blue hues harmonize well with other blooms.

	10
Orientalis . Purple-violet.....	\$3 50
Emperor . Large; rich blue-violet.....	9 50
Perry's Blue . Clear light blue. Very handsome.....	9 50

William M. Hunt & Company

INCORPORATED

Iris Kaempferi (Japan Iris)

Magnificent garden plants, blooming later than the Bearded Iris, producing handsome, flat flowers of great size in enchanting color combinations.

Gold Bound. Very large, pure white petals with rich yellow center.	10		
			\$7 00
Mahogany. Dark mahogany-red. Very rich and sumptuous.			7 00
Oriole. Double flowers of rich red-violet with a velvety purple sheen.			7 00
Templeton. Double flowers of light blue with rosy white markings.			7 50
Toledo. Single white flowers stained rose.			8 00
Victor. White, shaded purple, with violet-blue veins.			7 00

Ixias

Finest Mixed. Handsome bulbous flowers for gentle forcing in greenhouse and conservatory, blooming in early spring. Wide range of colors.	10	100	1,000
	\$0 50	\$2 50	\$20 00

Leucojum

Vernum (Spring Snowflake). Similar to the Snowdrop but larger and later.	1 00	7 50	70 00

Snowdrops

Splendid for naturalizing.			
Single. Top-size bulbs.	60	3 50	32 00
Double. Top-size bulbs.	75	5 00	45 00

Trillium

Grandiflorum (White Lily). A superb native plant with an erect stem a foot or more high, crowned by three broad leaves in the center of which is a glorious, 3-petaled, lily-like flower. Wood-land conditions, shade, and leaf-mold are essential to true success.	1 50	10 00	
--	------	-------	--

Winter Aconite (Eranthis)

Bright yellow flowers; valuable for naturalizing. Blooms in early spring. 50 cts for 10, \$3 per 100, \$20 per 1,000.

Hunt's Bulbs and Roots

Galanthus (Snowdrops)

Fritillaria Meleagris

Miscellaneous Domestic-Grown Bulbs and Roots

Anemone

Gorgeous, whirled flowers of brilliant colors—scarlet, blue, pink, white, etc.—with strongly contrasted centers. They are splendid cut-flowers and make a fine showy bed. In most sections the bulbs need about the same protection afforded pansies. They can be kept in a frame over winter and be moved into the garden when in bud or bloom.

	10	100	1,000
French, Single Mixed	\$1 00	\$7 00	\$65 00
St. Brigid, Mixed, Irish Strain	1 50	8 50	80 00

Dielytra (Dicentra)

Spectabilis (Bleeding-Heart). Not a bulb, but strong roots which produce lovely foliage and long racemes of pink, heart-shaped flowers in May. Especially valuable for shady places and for forcing.

	10	100
	\$7 00	\$60 00

Eremurus

Extremely rare plants of liliaceous habit, throwing up lofty stems bearing tremendous spikes of lily-like flowers. The fleshy, spider-like roots should be planted in a sheltered place because the new growth is susceptible to damage by late spring frost, and ought to be left undisturbed as they improve with age.

Tritonia

Gorgeous tiger-like flowers. Splendid pot-plants.

Crocata. Orange-scarlet.	1 00	7 00
---------------------------------	------	------

Watsonia

Like graceful, loosely flowered gladiolus. Very popular for indoor culture.

America. Delicate pink.	Hazel. Orange-pink.
Cream Cup. Creamy white.	J. J. Dean. Rose-pink.
Estrella. White.	Lilian Benners. Lavender.
Eunice. Salmon-pink.	Santa Cruz. Deep rose.
Ed. Sturtevant. Brilliant orange.	Victory. Deep salmon-red.
Ardenia-alba (White South African Bugle Lily).	

All varieties, \$3 for 10, \$20 per 100

Antirrhinum (Snapdragon)
Hunt's Geneva Pink

Lawn on the Fairlawn Farms, Estate of Sanders A. Wertheim, Esq., Allenhurst, N. J.
Grass seeds supplied by William M. Hunt & Company, Inc.

Grass Seed Mixtures

Hunt's Perfection Lawn Seed

This mixture is well worthy the name we have bestowed upon it, and we firmly believe is destined to become the favorite Grass Seed for use where a fine lawn is of importance. It is the result of careful study and trials made during the past few years under varied conditions. Those who have tried out this seed tell us that "we have got the real goods for a perfect lawn." Lb. 80 cts., 20 lbs. \$12.50, 100 lbs. \$60.

Hunt's Perfection Lawn Seed contains 10 per cent South German Mixed Bent (Creeping Bent).

Prospect Park Lawn Seed

With proper care of the soil before sowing it will produce a rich, velvety lawn in six to eight weeks, which will remain green throughout the year. For making new lawns we recommend 5 bushels to the acre; 1 pound of seed will sow 250 square feet; for renovating use one-half this quantity. Lb. 55 cts., 20 lbs. \$8.50, 100 lbs. \$40, 1,000 lbs. \$375.

Hunt's Lawn Dressing Seed

Unsurpassed for Restoring Old Lawns

Our **Lawn Dressing Seed** is a scientific blending of the **Finest Lawn Seeds** with those fertilizing elements that give nourishment to the rootlets, thus insuring perfect growth, fine texture, and deep, rich coloring. Germination and rapid growth are stimulated by its free use.

100-lb. bag, \$40; 50-lb. bag, \$21; 25-lb. bag, \$11; 5-lb. bag, \$3

MIXTURE FOR SHADY LAWNS AND UNDER TREES. A combination of dwarf-growing grasses which thrive in shaded places. It quickly produces an abundant and even growth of lovely green grass where ordinary lawn seed mixtures fail. Lb. 80 cts., 20 lbs. (bus.) \$12.50, 100 lbs. \$60.

TERRACE LAWN SEED. A mixture of fine stoloniferous grasses specially suited to terraces. Will produce a rich and lasting turf. Sow at the rate of 2 pounds per 100 square feet. This mixture is a combination of such grasses as will make a quick, strong growth taking a firm hold of the soil and prevent washing away by heavy rains. Lb. 80 cts., 20 lbs. \$12.50, 100 lbs. \$60.

TENNIS-COURT MIXTURE. Will make a firm, green and lasting turf in the shortest possible time, that will improve with trampling. Lb. 90 cts., 20 lbs. \$13.50, 100 lbs. \$65.

SEASHORE MIXTURE. This mixture is peculiarly suited to seaside lawns, etc. Lb. 80 cts., 20 lbs. \$12.50, 100 lbs. \$60.

POLO FIELD MIXTURE. A mixture of specially selected grasses for heavy trampling that will quickly recover from hard usage. 100 lbs. \$60, 500 lbs. \$275.

Hunt's Geneva Pink Antirrhinum

A Wonderful New Snapdragon

LOVELY in color. Profuse in bloom. Strong in growth. Unrivalled by any other new or old Antirrhinum. The best pink variety for under glass.

Our seed is saved only from greenhouse plants and can be relied upon to come true to name and color.

Best results are obtained by sowing seed in July, producing a heavy crop of flowers from January to June.

*\$1 per packet,
\$2.75 for 3 packets*
